

Transit[®] 500

COMPLEXED ORGANIC MATTER

PURPOSE

Transit 500 is a liquid biostimulant product that improves tolerance to and recovery from abiotic stress, increases sap Brix, enhances fertilizer efficiencies, and increases nutrient uptake, all of which aid the plant's ability to improve root and shoot growth and increase biomass. Transit 500 is a biostimulant designed to aid plant growth and improve quality metrics in row crops, legumes, fruits, vegetables, and permanent crops through soil, foliar, and/or seed applications.

CONTAINS BENEFICIAL SUBSTANCES

Complexed Organic Matter 0.90%

Derived from: natural organic matter from a terrestrial source.

DIRECTIONS FOR USE

Transit 500 can be applied alone or as a manufacturing use product in combination with other crop inputs, including blending with liquid fertilizers or coated onto dry fertilizer. Applications should ensure a final delivery in the field of 1.2-2.4 oz/ac (or 90-180 mL/ha) using soil and foliar applications. For seed treatment, use 0.2-0.8 oz per 100 lbs. of seed (or 13-52 mL per 100 kg of seed).

KEEP OUT OF REACH OF CHILDREN

COMPATIBILITY

Transit 500 is completely water soluble and is compatible with most fertilizers and pesticides. Do not mix with other products in concentrated form without first adding water. A standard jar test is recommended before tank mixing. Consult your supplier or advisor for further information.

HANDLING

Transit 500 is stable, non-flammable, and non-explosive. If spillage occurs, recover and reuse. Dispose of contents/container in accordance with local/national regulations.
